

SYSTEM REQUIREMENTS FOR TRU-FI CU MOBILE BANKING APP

Supported Devices

The Mobile Banking application works with a variety of supported smartphones and other devices by utilizing your phones web browser or operating system. The list of supported devices is as follows:

The App Store (I.E. Apple)

Operating System iOS v4.2 or higher

Google Play (I.E. Android)

Smartphones with the Android Operating System v1.6 or higher

All other mobile devices that have data connectivity and include a WAP-base web browser. *Sufficient free memory space, as per each individual application size (see the application markets for the exact application size), must be available on the installing device.*
